## Instructions:

- Stamp sentiment using Rich Razzleberry on to lower right corner of Whisper White panel.
- Emboss stamped panel using Softly Falling Embossing Folder
- Set ½ x 1 ½" DSP aside, and for the remaining DSP pieces, choose which side will be seen from outside and make triangles by taking top left corner and bringing to bottom center and crease with bone folder. Then take top right corner and fold to bottom center and crease with bone folder. Repeat for remaining 4 pieces of DSP. The ½ x 1 ½" DSP is your tree trunk.
- Starting with your single smallest triangle, add a dab of fine tip glue to the back/tip of triangle and place inside smallest triangle making sure the openings line up. Adhere remaining 3 triangles the same way being sure to keep openings lined up. The spacing between each level is on average ½ ". Adjust so that it is pleasing to your eye. Adhere tree trunk last.
- Attach Tear & Tape to your velvet ribbon and attach to your card panel above the sentiment.
- Adhere completed tree to embossed/stamped card panel just above the ribbon.
- Adhere Card Front to card base using Fine Tip Glue.
